

Client Intake & Consultation Summary

Prepared by Ese Laureta Ekponbor, RN, RM | Medical Virtual Assistant Sample Task | Telehealth Client Support

Client Details

Client Name (fictional):	Jane A. Okoro	Client ID:	TH-2026-0143
Date of Contact:	July 14, 2026	Channel:	WhatsApp / Phone
Service Requested:	Weight management consultation	Status:	Active — Week 3 follow-up

Consultation Notes

Client reached out via WhatsApp for a scheduled Week 3 follow-up on her weight management protocol. Reported consistent adherence to the prescribed regimen with mild nausea in the first few days, now resolved. Client asked clarifying questions about meal timing and hydration. Guidance was provided in line with the company's clinical communication framework, and the client was reassured about the expected progression of symptoms. No adverse effects requiring escalation were reported.

Action Items
